Bourbon Circuit Court.

Judge Stout reconvened court Friday morning after giving the jurors and witnesses a Thanksgiving holiday. The Commonwealth docket was again taken up and a number of cases disposed of, most of them being dismissed and continued.

Sid Winkler, charged with flourishing a revolver and threatening the life of Mrs. J. W. Webster, of North Middletown, was assessed a fine of \$75 and costs.

Geo. W. Stivers, charged with using abusive language on the day of the local option election was fined \$25 and cost. This was a case appealed from the lower court, where he was fined \$100 and given ten days in jail.

Will Letton, a negro charged with destruction of property not his own, was fined \$300 and costs. The grand jury made a partial report and upon statement of the foreman the time in which to complete their labors was extended by the court. The following indictments were returned: James Soussley, house-breaking; Otis Evans, same; Will Warfield and Maggie Brown, arson; Dan Anderson, malicious cutting and wounding; George Tiffy and Sam Smith, robbery; the latter was also indicted for carrying concealed weapons; Richard Wade, alias Cricket, receiving stolen property, and Mary Nelson, a negro girl, grand larceny.

Judge Stout adjourned court Saturday at noon, until Tuesday morning at 9 o'clock.

Elks' Memorial Services.

Paris Lodge Benevolent and Protective Order of Elks paid tribute to the memory of their dead Sunday evening at the Christian church in this city. There was a large congregation present. The exercises consisted of appropriate music by a quartette composed of Mrs. Fanniebell Sutherland, Miss Julia O'Brien, F. P. Walker, and Dr. Frank Fithian, the accomplished organist, Mrs. M. H. Dailey, presiding as accompanist.

The address was delivered by Dr. F. W. Hinit, President of Central University, of Danville. Dr. Hinit selected the friendship of David and Jonathan as his theme and made one of the most thoughtful, impressive, eloquent and best addresses ever delivered in our city.

John B. Kennedy Dies.

Mr. John B. Kennedy died Sunday afternoon at his beautiful country home on the Georgetown pike near town, at 1 o'clock, after several weeks' illness from general debility. It was the anniversary of Mr. Kennedy's 83 birthday when he peacefully entered into rest.

He was one of our wealthiest and most highly respected farmers, enjoying the confidence and esteem of all. In religion he was a Universalist.

He was noted as a breeder of Short-horn cattle and for many years was the king of fat cattle producers in Central Kentucky, his produce taking many premiums at State and International live stock shows.

Mr. Kennedy was born December 1, 1824, and lived all his life in this county. He was a son of Washington Kennedy, who commanded a company in the war of 1812. His father, John Kennedy, was a native of Virginia and pre-empted land in Bourbon in 1776, which was afterwards settled in 1799 by his son Eli Kennedy. Mr. Kennedy's mother was Elizabeth Bedford, who died in 1832. His father dying in 1834 Mr. Kennedy was left an orphan and went to live with his uncle, John Bedford, till he reached his majority.

Mr. Kennedy was twice married, his first wife being Mary Waugh Kennedy, by whom he had two children, Sidney B. Kennedy and Mary Kennedy Tarr, wife of Mr. Thompson Tarr, the latter surviving. His second wife was Mrs. Alice Redmon, daughter of Greenberry Dorsey, of New Orleans, and died several years ago.

Mr. Kennedy owned one of the most beautiful Blue Grass farms in the county, "Elm Spring," on the Georgetown pike, and which contains more than six hundred acres.

The funeral will take place at the residence this (Tuesday) afternoon, December 3, at 2 o'clock p. m. Services by Elder Carey E. Morgan, assisted by Elder J. S. Sweeney.

Active Pall Bearers.—Catesby Woodford, A. P. Adair, J. Q. Ward, Bruce Miller, Dr. Chas. G. Daugherty, W. P. Ardery, Joe Leach, Ben Bedford.

Honorary Pall Bearers.—F. P. Clay, Sr., L. M. B. Bedford, Wm. Tarr, C. A. Daugherty, Simon O'Donnell, Geo. Alexander, E. M. Dickson, Geo. R. Bell.

Immediately after the services the remains will be taken to Cincinnati and cremated, this he required a promise from his family to do before his death. His ashes will be placed in an urn and deposited on his lot in the Paris cemetery.

Boy Dies From Wounds.

Julius Cook, a thirteen-year-old colored boy, who was shot at Lexington some weeks ago by Mrs. Emma Glibert, a white woman, for skating on the sidewalk in front of her house, died Saturday morning from the effect of his wounds. Mrs. Glibert, who has been under bond since the shooting occurred, has been arrested, charged with murder.

Your personality
is a great asset.

A plain black suit is dressy, so is a fancy check or stripe, but the appearance of the man who wears any style or color of suit is materially improved by a fancy vest.

It will give you a prosperous look, improve your personality, in short, a fancy vest is a valuable asset—not an expense.

"R. & W." Vests fit right and the styles are unique—try this season's new model and you have increased your value.

IN the Louvre is a painting 4x6 inches that is worth \$10,000. The actual canvas costs but a few cents.

Value is judged by what the artist created on the canvas.

The value to you of an W & R Fancy or Full Dress Vest is not wholly in the cloth, but in the artistic style with which it is built.

It requires the highest order of ability to create graceful effects in a garment of such severe lines as a fancy vest—the same skill is responsible for "Mackinette" Rain Coats, R & W Suits and R & W Overcoats.

Their snap and individuality appeal to all men who care to be well dressed.

Uncle Sam In Business.

It comes as a surprise to many of those engaged in the discussion of the relative merits and disadvantages of government ownership to be told that Uncle Sam at the present time not only owns but operates a great variety of businesses. Such is the case however, and these different government activities include the carrying on of practically all the enterprises that any except the most advanced socialists advocate putting into the hands of the government. Comprehensive information as to these various enterprises carried on by the Federal government has been collected by Harold Bolce and the results are to be given in an article in the forthcoming number of Appleton's Magazine.

While even the most radical politicians do not recommend the operation of railroads by the government and while Mr. Bryan has declared that it is not an issue at present, it is pointed out that the United States is actually running not only a railroad but an extensive steamship line as well. This is the Panama railroad and the Panama railroad and the Panama Steamship line between New York and Colon. While both were acquired as an incident to the building of the Panama Canal, the Government runs them quite like a private enterprise. To attract business it issues advertising pamphlets enlivened with cuts of Spanish senoritas and street scenes in Panama and announces that "wines, spirits, etc., of the best quality are provided on board at moderate prices." So that, in addition to his other varied activities, Uncle Samuel figures as a barkeeper.

The Federal government has also invaded the telegraph and cable business, operating the Washington-Alaska system which gives communication between the Alaskan towns and the rest of the world. The total length of the land lines of this system would be sufficient to reach two-thirds of the distance across the continent, while the government cables would extend across the Atlantic. To prove that he is strictly up-to-date, Uncle Sam combines the wireless with his other systems of telegraphic communication and regularly sends wireless messages across Norton Sound, a distance of 107 miles, in connection with the cable and land lines.

Out in the Philippines the government has established a system of postal savings banks, although the opposition to this scheme is still strong enough to prevent its introduction within the limits of the States. Two and a half per cent. is the rate of interest paid on these government deposits. The insular possessions and Alaska, according to the Appleton's story, have been the seat of most of the national excursions into the fields of business usually left to private enterprise. In different parts of these newer possessions there are government packing houses, a government cold storage and ice-making plant, a government summer resort at Benguet in the Philippines, government trading stores and circulating libraries, and even government farms and tenement houses. Manila has a government newspaper and Porto Rico boasts a government telephone line.

All of these undertakings seem to be fairly successful and some of them are yielding returns above the cost of operation. While most of them have been entered upon since the beginning of the Roosevelt administration, they do not necessarily indicate that the country is going into government ownership and operation generally. Most of them have been taken up by the national administration because private capital was not attached to them. At the same time they afford an interesting showing of the extent to which the United States is engaged in the operation of what are usually private lines of business.

We hear a good deal of hoarding money, but at present prices of paper and other tariff protected products, most people and certainly the printer, are unable to save anything to hoard.

While our Republican financial doctors are disputing about the treatment to be given the panic patient, the "neophyte" doctor in charge of the United States Treasury is trying to reduce the temperature by more inflammation.

Is It?

In addressing the jury in his opening speech in the case of the government against Banker Walsh, of Chicago, Attorney Dobyne, the government prosecutor, used this language: "It is the policy of the government to nurse a bank found to be in trouble, even to conceal crime until its affairs can be straightened out."

Referring to this statement the Atlantic (Ia.) Democrat says: "This statement should be cut out and framed and read daily until the full meaning of it is comprehended. It accounts for many failures of banks which had but a short time previously received the O. K. of the government."

Figures.

The President says: "On November 30, 1893, there was in the treasury but \$161,000,000 in gold. On November 14 of this year there was in the treasury \$904,000,000 in gold. Ten years ago the circulation per capita was \$23.23. It now is \$33.23." These are not figures on which a real panic can get a footing.

St. Louis Globe-Democrat (Rep.) Nor do they look like figures upon which a bond issue in time of peace should get a footing.

Poor Old Pa.

The St. Louis Globe-Democrat (Rep.) says: "Pennsylvania's largest Democratic vote was 425,264. In 1896, the year of Bryan's first campaign, it dropped to 422,054. In 1900 it was but 2,200 larger. The Parker slump in 1904 was to 335,430. In the same time the Republican vote of the State increased 300,000."

And about the same time, also, the people of Pennsylvania trusted the Republican party to build a State House and it developed that out of the \$13,000,000 paid by the people of Pennsylvania for that State House \$9,000,000 went into the pockets of a lot of political grafters.

Suely Pennsylvania is Republican! Poor old Pennsylvania!

1898 and 1907.

In his letter to Secretary Cortelyou commending the government issue of bonds Mr. Roosevelt said: "There is no analogy at all with the way things were in 1893. On November 30 of that year there was in the treasury but \$161,000,000 in gold. On November 14 of this year there was \$904,000,000 of gold. Ten years ago the circulation per capita was \$23.23. It is now \$33.23."

Mr. Roosevelt might have added that at this time when the government is issuing \$50,000,000 in bonds it has something more than \$5200,000,000 loaned to the banks.

Mr. Cleveland had but \$161,000 in gold and no money to loan to the banks but he was roundly denounced, for his bond issue, by Republican papers.

Mr. Roosevelt has \$900,000,000 in gold and \$250,000,000 loaned to the banks, yet he makes a \$50,000,000 bond issue in time of peace and men who condemned Cleveland applaud Roosevelt.

This Republican Administration is finding it so difficult to decide, "what is whisky," that the question of what is a bad trust is being overlooked.

The Steel Trust says it will not reduce prices in spite of the depression. Well the tariff protects it in charging high prices.

That declaration of Tennessee Democrats for a Southern man for President in bearing fruit. The Atlanta Journal has joined in pushing the movement, which is the more significant, because Governor Hoke Smith of Georgia owns or controls the Journal.

The Vice President of the Tobacco Trust testified lately that it cost two million dollars to effect its European consolidation. That amount is a trifle compared to what the trusts cost the people through the tariff protection the Republican party persists in standing pat upon.

The President is beginning to feel real criticism from his own party. Judge Brewer, of the United States Supreme Court, says he is "playing a game of hide and seek with the American people," and Senator Spooner declares "no one can tell what he will do next."

Escaped Convict Shot to Pieces.

Shot almost to death in a desperate battle with deputy sheriffs in Scott county, Tennessee, John Shotwell, 32 years old, of Corbin, was finally captured Monday morning near the Kentucky line and arrived at Frankfort penitentiary Wednesday barely alive. There are five bullet holes in him, two in his head, two in his right arm and one in his leg. Dr. Joseph Barr, the prison physician, performed a trephining operation on him, removing a part of his skull and a blood clot from his brain. He is not expected to recover, although his determination and will may pull him through.

Fish in Inclosed Waters.

Most people not without education and a general knowledge of natural history are mystified by the presence of fish in inclosed waters. For many years there was open mouthed wonder over the perch, bream and crayfish found in the newly cut dams near the Macquarie river, in New South Wales. In some cases the water had scarcely settled after the rain had filled the dam than the fish were observed, and the Australian farmers started a theory of spontaneous production. This obtained and gained wide credence until a Sydney professor chanced to pick up a wild duck and found its breast feathers and webbed feet well dotted with fertile and almost hatched fish ova, on which the "spontaneous production" theory was promptly withdrawn.—St. Louis Globe-Democrat.

Old Time Mountebanks.

Coryat, describing the mountebanks he saw at Venice in the seventeenth century, who were adepts in the art of advertising, speaks of the "oration to the audience of half an hour long, wherein he doth most hyperbolically extol the virtues of his drugs and confections, though many of them are very counterfeit and false." And the author of a "Tour Through England" (1723) writes of a mountebank he saw in Winchester: "He cures all diseases and sells his packets for sixpence apiece. * * * It is a prodigy how so wise a people as the English are gulled by such pickpockets."

Doglike.

As usual, he complained that the biscuits were heavy, the coffee weak, the bacon burned, and so forth.

His wife in the end looked up calmly from her letters.

A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz., pure refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and astringent, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal Passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be taken.

Cost of Canal.

Full details of the work done on the Panama canal during the fiscal year 1907 with a showing of what has been accomplished since the project has been in American hands, are disclosed in the annual report of the Isthmian Canal Commission. Aside from the \$50,000,000 paid to the French Company and to Panama, an aggregate of \$48,285,110 has been expended on the project adopted by Congress, and which, it is estimated by the Board of Consulting Engineers, should ultimately cost \$139,705,200.

DEATHS.

—Mrs. Laura Worthington, aged 88 years, a most excellent woman, died in Covington Wednesday last. She was an aunt of Mr. Chas. P. Cook, of this city, and a sister of Mrs. Fannie Hays, formerly of Millersburg.

—Joseph H. Hopson, of Lexington, died suddenly in Louisville, Friday evening of paralysis. He is survived by his wife, formerly Miss Nannie Bullitt, of Lexington, and one daughter, Miss Katherine Hopson.

Mr. Hopson was born and raised in Paris, his father being Dr. Henry Hopson, a much beloved physician. His mother before marriage was Miss Hannah Cook, sister of Mrs. David Keller, formerly of Paris.

The body was brought here Sunday afternoon on a special interurban car, at 2 o'clock, and interred in the family lot in the Paris cemetery, by the side of his parents.

—Mrs. Fannie Hedges Barrow, wife of Mr. Thos. Barrow, died at her home in Clark county, near Winchester, Saturday morning. The remains were brought to this city Sunday at 1 o'clock p. m., and short services held at the grave in Paris cemetery, conducted by Elder Carey E. Morgan, who paid just tribute to her noble Christian character. Mrs. Barrow was a most excellent woman and her death is mourned by a large circle of relatives and friends in Bourbon. She was a sister of Walter Hedges, Ollie Hedges, and Mrs. Charles Clendenin, of this city, and Miss Mattie Hedges, of Lexington.

—Mrs. Alleen Sanders Troxell, aged 25 years, died Friday afternoon at her home in Norwood, O. The deceased was a daughter of Mrs. Belle Sidener Sanders, formerly of Paris, her father, the late Edgar Sanders having preceded her to the grave. She is survived by her husband, Mr. Otis Troxell.

Mrs. Troxell was a lovely young woman and it is truly sad that one so young, just entering into young womanhood, should be taken from her loved ones.

The burial took place from the 11 o'clock train yesterday morning, services being held at the grave, conducted by Elder Carey E. Morgan.

—The funeral services of Mrs. Belle McClintock Judy, wife of Jailer Geo. W. Judy, were held Sunday afternoon at 3 o'clock at the grave in the Paris cemetery, conducted by her pastor, Rev. J. S. Malone, assisted by Elder Carey E. Morgan. The large concourse of sorrowing relatives and friends attested the high esteem in which this lovely woman was held in the community. The floral offerings were beautiful.

Merchants Protective Association.

The Paris grocerymen have organized what is known as the Merchants Protective Association. The following officers have been elected: President, Gus Fee; Vice President, V. K. Shipp; Treasurer, Chas. Clendenin; Secretary, Chas. Wilmoth. This association is for the mutual protection of the members from those who do not pay their bills promptly. They will also adopt the thirty-day credit system. Every groceryman in town with the exception of one has joined the association, and no doubt he will when he comes back to town. It is hoped by the Association that every merchant in Paris, other than grocery-men, will become members.

Fourth Week of Powers Trial.

At Georgetown yesterday in the Powers trial Judge Morris excluded certain portions of the testimony of Dr. Welch, Ben Marshall and Col. Bennett H. Young. Henry Broughton, former county clerk of Bell county, was the first witness examined on yesterday morning.

Court Day.

The smallest crowd was in town yesterday that has been seen in Paris on Court Day for some years. There were three mules and 100 cattle on the market and no sales. It was a record breaking court day in smallness of crowd and trading.

On the Honor Roll.

In another column will be found the Honor Roll of Paris City School. Through an oversight the names of Marmaduke Brown 92, and Lucille Swearingner 90, were omitted.

Meeting of Tobacco Growers.

The Bourbon County Society of Equity held a meeting yesterday at the Court house, President John A. Larue presiding. Hon. C. M. Thomas made a rousing speech and a number of farmers who were out of the pool signed their crops. The following resolutions were adopted:

Whereas, it has come to our notice that certain parties are buying or making efforts to buy tobacco outside the pool. This in our judgment is greatly to the disadvantage of the Society of Equity by whose efforts the price of tobacco has been greatly increased and Whereas, at a meeting held in this house on November court day it was unanimously agreed that no crop of tobacco would be raised grown in 1908, the same action having been taken by all counties of the Burley District, which action can not but result in the sale of our tobacco in the near future. Now therefore be it

Resolved, by the Bourbon county members of the Society of Equity in mass convention assembled, that we respectfully request the independent growers to stand with us and withhold their tobacco from the market, believing that such action on their part will result in obtaining a better price ultimately for their products than it will at present bring and further that such action on their part will promote good feeling in our community and prevent any lawlessness to which we are unalterably opposed.

Must Have Stolen Her.

A few days ago Mr. Nathan Bayless, Jr., who has a stable in East Paris, stopped a negro who was riding by and asked him if he owned the mare he was riding. The negro replied that he did and after some talk Mr. Bayless purchased her for \$80. On their way over in town Mr. Bayless thought probably the mare might have been stolen, and told the negro, who gave his name as Chas. Jones, that he would give him \$5 of the \$80 until he could bring somebody to identify him. Jones took the \$5 and has not been seen since.

Chief of Police Hill is now in charge of a 3-year-old, 15½ hands high, dark bay mare, heavy mane and tail, hind feet white and good saddle mare. It was afterwards learned that the negro who sold the mare lived near Mt. Sterling.

ONLY NECESSARY TO TREAT THE STOMACH

Claim of Central Figure in Recent Controversy Is Novel.

The new theory advanced by L. T. Cooper relative to the human stomach has attracted such widespread attention that the public in cities visited by the young man has been joined by many physicians in a discussion of his beliefs and medicines.

Mr. Cooper says that human health is dependent almost entirely upon the stomach. He says that no disease can be conquered without first alleviating all stomach disorders. He further says that most men and women of this generation are half-sick, owing to degenerate stomachs. And lastly, he claims that his New Discovery medicine will rejuvenate the human stomach in 90 days.

Cooper has been traveling from one city to another, conducting in each what he calls a campaign of education. For the past year he has met the public in the larger cities of the country, and his success has been phenomenal. Thousands of people have flocked to his headquarters wherever he has gone, and the sale of his medicine has been beyond anything of the kind ever before witnessed.

Possibly the most interesting feature of the attention this young man has attracted is what his army of followers, whom he has converted to his beliefs through his medicines, have to say on the subject. The following statements are from two well known residents of Chicago and Boston, respectively, and the enthusiasm of these is characteristic of Cooper's admirers generally.

Mrs. H. B. Mack, of 3201 State street, Chicago, says: "I have been suffering for 12 years from a combination of stomach troubles, catarrh and constipation. I had a mawing pain in the pit of my stomach, a sort

of a dull pain that I could not quite understand. Then there was a dull headache, and my mind seemed to be wandering continually. I could not eat, and what little solid food I did eat I could not retain on my stomach. I tried every remedy I could think of, and also tried out a number of patent medicines, but without any apparent result. It was through one of my friends that I heard of Cooper's preparation, and I immediately decided to try some of it. It is two weeks since I took my first dose of it, and I feel like a new woman. The headache seems to have disappeared, and the pain in my stomach along with it. The medicine is worth its weight in gold, and I want to thank Mr. Cooper for what he has done for me."

Mr. Edwin F. Morse, of 20 Oakley street, Dorchester, a suburb of Boston, says: "For three years I had not a well day. My stomach was in frightful shape; the mere thought of food would nauseate me, and I really had a horror of anything to eat. All solid food would cause me extreme indigestion, bloating and gas on my stomach, and nothing tasted right. Some time ago I got some of this Cooper's medicines, about which there is so much talk. I actually feel as well and strong as a boy ever since the first bottle. Every sign of stomach trouble has disappeared, and I have a hearty appetite and eat three square meals; every thing seems to taste good. Anyone who knows what chronic indigestion is can appreciate what this means to me. I consider this the most remarkable medicine I ever heard of."

We sell Mr. Cooper's medicines, and find them to be all he claims. Geo. S. Varden & Son.

Must Use "Incorporated" With Name.

The Court of Appeals decided Saturday that corporations doing business in Kentucky can be fined for not placing the word "incorporated" on their signs and advertisements. The Windisch Muhl user Brewing Company, Lexington Brewing Co., Singer Manufacturing company and several other corporations were indicted in Danville for not using the word "incorporated" as required by statute. The lower court dismissed the indictments and the Commonwealth appealed. The Court says the corporations can be prosecuted were the company resides, each company being required when it files its articles of incorporation to name an agent who resides in this State, upon whom notices and processes may be served. The Danville indictments are knocked out but other indictments may be returned in other counties.

Banker Suicides.

Howard Maxwell, the deposed president of the Bank of Brooklyn, who was under indictment for grand larceny and forgery and who was Tuesday night released from jail on \$30,000 bail, committed suicide Wednesday. He cut his throat and left wrist with a razor and penknife in the bath room of his home in Brooklyn and died at Long Island College Hospital.

Easy To Mix This.

What will appear very interesting to many people here is the article taken from a New York paper, giving a simple prescription, as formulated by a noted authority, who claims that he has found a positive remedy to cure most any case of backache or kidney or bladder trouble, in the following prescription, if taken before the stage of Bright's disease.

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take in teaspoonful doses after each meal and again at bedtime.

A well-known druggist here at home asked regarding this prescription, stated that the ingredients are all harmless, and can be obtained at a small cost from any good prescription pharmacy, or the mixture would be put up if asked to do so. He further stated that while this prescription is often prescribed in rheumatic afflictions with splendid results, he could not see any reason why it would not be a splendid remedy for kidney and urinary troubles and backache, as it has a peculiar action upon the kidney structure, cleaning these most important organs and helping them to sift and filter the blood the foul disease and waste matter which cause sickness and suffering. Those of our readers who suffer can make no mistake in giving it a trial.

The song in your own heart will sustain you longer if you share it.

The Farmer.

Farmers have had ten years of good crops and good prices. In most of these years they have had both. Deficiencies in one corn and one cotton crop were more than made good to them by high prices. Last year they took in more money than ever before, and this year they are likely to take in \$1,000,000,000 more than they did last year. They will buy freely many sorts of merchandise and they will have money to invest. Good business is about as certain as it can be for another year, proving over again that when the farmer is prosperous every body is prosperous.

Piles! Piles! Piles!

Dr. Williams' Indian Pile Ointment will cure blind, bleeding, ulcerated and itching piles. It absorbs the tumors, allays the itching at once, acts as poultice, gives instant relief. Dr. Williams' Indian Pile Ointment is prepared for piles and itching of the private parts. Every box is guaranteed. Sold by all druggists, by mail for 50c and \$1.00.

Public Education.

Public education is the most important topic of these times. Men have been giving their attention to politics but the election is now over.

There is another campaign which should never end, and which has a far more important purpose. It is the campaign of education; the organized effort promoted by the leading women of our State to secure to every child his God-given right of education. The desire to know belongs to the human mind and it is only necessary to give this desire a chance, and every community will steadily grow in general intelligence. Our generation will surpass the preceding one, both in knowledge and in power. To this end our schools must be taught by the best teachers, not those who are left over and can find nothing else to do, but by those who love to teach and are prepared for it.

In the days of Queen Elizabeth, Roger Ascam wrote, "that many a father who owned a fine horse, in which he took great pride, was also the possessor of a son, who was a steady grief, and," said this wise old English teacher, "there is little wonder, for they are at infinite pains to provide a suitable trainer for the horse, but are usually satisfied that one far less competent should carry on the training of their sons." They reap the reward of their folly; horses of which they may be proud and which bring them honor and sons of whom they are ashamed and which bring them disgrace.

There are still men who give more time and thought to the training of their horses than to the education of their children, and who are willing to spend dollars for the horse to pennies for the child. But this painful lack of right relation in things is not general, and the public thought and the public conscience is steadily coming to a greater appreciation of the uses and value of education.

Education means much to any community, but for some communities it is the very breath of life, and the moment they begin to fail in their duty to this sacred cause, they enter the way of death. The most abundant life of which comes to men who devote themselves to the highest things, and prepare themselves fully for the work to which they are called. Education is offer the magic word which unfolds to a youth the vision of his life, and gives him the model and the perseverance to make a reality of his high vision.

The common school is the channel through which this course of blessing finds its way. Every patriot and every friend of his kind must rejoice to its advancement.

GEO. A. HUBBELL, Professor of Sociology and Economics in Kentucky University.

Biggest Ship on Ocean.

Poking her nose through a dense fog that hid the coast, her topmost lost from deck; view in the enveloping shroud, the biggest, the most luxurious ship ever launched on any sea, finished in safety her bridal voyage when at 11:03 a. m. Saturday, the Cunard line steamship Mauretania, came to anchor off the Sandy Hook lightship, five days, five hours and ten minutes from Queenstown. Bearing a fortune of \$12,500,000 in gold for the money marts of the West, she fought her way through 5,000 miles of storm swept ocean, battling every mile of the course to meet and defeat the world's transatlantic speed record of four days, eighteen hours and forty minutes, created and held by her sister ship, the Lusitania. Head winds and tumultuous cross seas baffled the attempt, yet the Mauretania won the right to fly one "blue ribbon" at her peak.

Decides It Is Not Profanity.

The Supreme Court of Mississippi has unanimously held that the expression "go to hell" is not profanity. A sensible decision. "Go to heaven, or purgatory, or sheol, or hades, or thunder or the dickens, or the demitition bowwows, or the Plutonian shore would be as much profanity as the expression "Go to hell." The latter, however, sounds harsher, but this is because custom and imagination have invested it with a vulgar and offensive meaning. To tell a man to go to Avernus or Tartarus is to more definitely and accurately and specifically tell him to go to the place of lost souls than to tell him to go to hell, and yet these words have various shades of meaning. We are not defending the expression, and neither is the Mississippi Supreme Court in declaring that it is not profanity, which is quite another thing for blasphemy, each thing had, but the latter worse, but the learned Judge shows more knowledge of language and the meaning of words than the fellow was shocked by the expression, but who thinks it no wrong to skin a man in a horse trade or a real estate transaction.

200 People Perish.

According to reports received, the recent storms on the Black Sea have resulted in terrible suffering and great loss of life. Among disasters to shipping is the foundering off Eregli, Siam, of the steamship Kaplan, one hundred and ten persons perishing. Numerous smaller crafts have been overwhelmed and these disasters, together with the loss of the Kaplan, bring the number of casualties to more than 200.

Theodore the First.

"Roosevelt as King" is the startling headline in the papers a few days ago, due to the Professor of Law at the University of Michigan declaring to his class of law students that the people should elect Roosevelt king. "Election to the presidency," said the professor, "and the maintenance of the officials under the present system is attended by too many political complications and evils, and for that reason he favored burning all the bridges and giving a free hand to Theodore I." To the credit of the students they did not, it is said, applaud the professor. This kind of talk shows where Republican policies, if allowed to continue, might lead us.

The Cripple and His Father.

Not even the wide flapping trousers of his sailor suit could wholly hide the slender form wasting away from lack of use. Smoldering brown eyes illuminated the little face, made wizen by hours of pain, as he smiled up at the tall man at his side, who, broad of shoulder and strong of face, smiled back encouragingly.

A troop of small boys noisily invaded the car at the next station. Reckless in their good spirits, one of their number was roughly pushed against a crutch, causing it to fall to the floor. The man's eyes blazed more with anguish than with anger as he exclaimed harshly, "Be careful!"

The sturdy urchins, awed at what had occurred, subsided in seats opposite. The man looked over their heads into space. The child looked first at the boys, then with questioning eyes back at the man.

"Fawther," he whispered as he lightly touched his sleeve, "would you love me better if I was like those boys?"

The man gave a startled glance across the aisle at "those boys," insolent in their perfect health and boyhood vigor, then tightly grasping the hand nearest to him said: "No, son. I love you better than all the world—just as you are."—New York Times.

Risky Speculation.

In the days "befo' de wah" a handy negro named Jack was saving money earned at odd times with which to buy his freedom. His master encouraged him and kept his money for him. In time Jack had saved \$900 and needed only another hundred to make him free. His master told him that it wouldn't be long now until he could get another hundred. Jack went out with another slave to celebrate some local festival. Returning along the railroad track they were frightened by an approaching train. Both got off the track, but Jack's companion fell and, striking his head against a rock, was killed. Jack hurried as rapidly as he could to his master's house. It was a late hour, but the master must hear him. He said, "Gimme mah money right now." The astonished master remonstrated, saying, "But, Jack, you need only another hundred dollars to get free." "I knows it, Mars' Henry, I knows it, but niggers is too onsertin. Bill jes' killed hisself by bustin' his head agin a rock, an' I ain' gwine inveh mah money in nothin' as onsertin as niggers."—Washington Herald.

Grieg as a Schoolboy.

Grieg, the noted composer, was not a pattern schoolboy. In a description of his days at school he wrote: "Knowing that by arriving late I would not be allowed to enter the class until the end of the first lesson, I used, on wet mornings, to stand under a dripping roof until I was soaked to the skin. The master then sent me home to change my clothes, but the distance being long this was equivalent to giving me a dispensation. You may guess that I played this prank pretty often, but when at last I carried it so far as to come one day wet through, though it had hardly rained at all, they became suspicious and kept a lookout. One fine day I was caught and made an intimate acquaintance with the birch."—St. James' Gazette.

A Peculiar Cold.

Sims Reeves had been announced to sing at a small public dinner at which Dickens presided, and, as happened not infrequently, Sims Reeves had something the matter with his throat and was unable to attend. Dickens announced this, and the announcement was received with a general laugh of incredulity. This made Dickens very angry, and he rose manfully to the defense of the delinquent. "My friend, Sims Reeves," he said quietly, "regrets his inability to fulfill his engagement owing," he added, with caustic severity, "to an unfortunately amusing and highly facetious cold."

Large Doings.

On Long Island a hundred and more years ago there was fox hunting for three days during the season, and the biography of Catherine Schuyler contains the following apt lines from the pen of a witty woman whose name remains unknown:

A fox is killed by twenty men.
That fox perhaps had killed a hen.
A gallant act no doubt is here.
All wicked foxes ought to fear
When twenty dogs and twenty men
Can kill a fox that killed a hen.

Ideal Justice.

"Sammy," said a Germantown mother recently to her youngest born, "when you divided those seven pieces of candy with your brother did you give him four?"

"No, ma'am," replied Sammy. "I knew they wouldn't come out even, so I ate one before I began to divide."—Harper's Weekly.

The Poor Villains.

"Don't your heart ache for the pore hero an' heroine, Hiram?"
"Oh, I dunno, Marthy. They allus come out right an' sassy in the end. Sometimes I can't help feelin' sorter sorry for the villain an' the villainess."—Louisville Courier-Journal.

His Inferiors.

"No," said Keadley, "I never associate with my inferiors. Do you?"
"Really, I can't say," replied Miss Cutting. "I don't think I ever met any of your inferiors!"

Eat More Candy.

"Give children plenty of pure sugar, taffy and butterscotch and they'll have little need of cod-liver oil," says Mr. Woods Hutchinson in the Christmas Woman's Home Companion.

"In short, sugar is, after meat, bread and butter, easily our next most important and necessary food. You can put the matter to a test very easily. Just leave off the pie, pudding or other desserts at your lunch or mid-day dinner. You'll be astonished to find how quickly you'll feel 'empty' again, and how 'unfinished' the meal will seem. You can't get any working man to accept a dinner pail without pie in it. And he's absolutely right. The only thing that can take the place of sugar here is beer or wine. It is a significant fact that the free-lunch counters run in connection with bars furnish every imaginable thing except sweets. Even the restaurants and lunch grills attached to saloons or bars often refuse to serve desserts of any sort. They know their business! The more sugar and sweets a man takes at a meal the less alcohol he wants. Conversely, nearly every drinking man will tell you that he has lost his taste for sweets. The more candy a nation consumes, the less alcohol.

"The United States government buys pure candy by the ton and ships it to the Philippines to be sold at cost to the soldiers in the canteens. All men crave it in the tropics, and the more they get of it, the less 'vino' and whisky they want.

"In fine, the prejudice against sugar is born of puritanism and stinginess, equal parts. Whatever children cry for must be bed for them, according to the pure doctrine of original sin; besides, it costs money. I know families in the rural districts yet where the head of the family groans over every dollar's worth of sugar that comes into the house as a sinful and 'unwholesome' luxury."

Louisville Strike Oil.

The strike of the Louisville railway men, which had lasted twelve days was declared off Tuesday evening by a unanimous vote of those of the company's former employees who met at Beck's Hall following a call for the Executive Committee of the union. It was an unconditional surrender. It was the men who, Ben Commons, member of the international Executive Committee of the union, and leader of the strikers, declared that they had lost undeniably. This action was taken after the leaders of the union realized that any further efforts on their part would be futile and following the riot led by members of the union Monday night, the confessions of some and the arrest of a large number, with the summary action of Judge McGee in holding those arrested under a bond of \$5,000 each. These events following so closely upon each other did not leave the result in doubt.

A Narrow Escape.

G. W. Cloyd, a merchant, of Plunk, Mo., had a narrow escape four years ago, when he ran a jimson bar into his thumb. He says: "The doctor wanted to amputate it but I would not consent. I bought a box of Bucklen's Arnica Salve and that cured the dangerous wound." 25c at Oberdorfer's drug store.

A FAMILY SAFEGUARD

Dr. Green arranges with the Niece of Dr. Boschee to handle her famous Uncle's Great Throat and Lung Cure.

The best family safeguard is a reliable household medicine that will cure croup, coughs, colds, chilly sensations, running eyes and nose, sore throat and bronchial affections—that will keep the children proof against all contagious diseases.

Such a medicine is Boschee's German Syrup, which has a record of 35 years in the cure of consumption, catarrh and all lung and bronchial troubles.

The fame of German Syrup as a consumptive cure, since its purchase by Dr. Green from the niece of the famous Dr. Boschee, has extended to all parts of the earth. It has big sales everywhere.

THEATRICAL.

"CUPID AT VASSAR."

The two characters "Shiney Black" and "Hank Gubbin," in Jules Murry's new musical college play for girls, "Cupid at Vassar," are the most comical creations seen on the boards this year. "Shiney" is the counterpart of a colored man found by the manager down in Virginia some years ago. At that time he took a great many notes of the man and promised himself that when the right time came he would have him put into a drama. The time has arrived and "Shiney" has been immortalized. "Hank" is a young fellow he found in Maine a year ago last summer. He is what a recent reviewer calls: "the most perfect representation of a New England farm helper put upon the stage since Joshua Whitcomb first brought his own farm hands to the footlights." Stronger praise couldn't be given of any stage copy of any one in the flesh. These two delicious characters will be seen when "Cupid at Vassar" comes to the Paris Grand on Monday, Dec. 9.

Deficit in Postal Department.

The report of A. L. Lawshe, Third Assistant Postmaster General, shows the deficit for the current year to be \$6,692,031.47, considerably less than the deficit for 1906. The report discusses at length the troubles of publishers over the second class mail rulings. Extension of the money order system to every postoffice is recommended.

Change in L. & N. Time Card.

The following changes in L. & N. time card will go into effect Sunday, the 17th: Train No. 67 leaves Paris at 7:30 a. m.; train No. 60 at 6 a. m. and train No. 29 arrives at Paris at 7:25 a. m.

Republican National Committee.

A meeting of the Republican National Committee will be held at Washington on December 6. While the principal business will be to decide upon a time and place to hold the next national convention of the party, it is said to be not unlikely that the question of a candidate for President will be discussed.

Congress Convenes.

Both houses of Congress were convened at 12 o'clock yesterday and the session of Congress, which began at that time, will continue indefinitely. Little business will be transacted during the first week of the session, and both houses will adjourn almost immediately on account of the death, during the recess, of members of each organization. The President's message will appear in Friday's issue of the News.

McChord Gets Fat Fee.

Charles C. McChord, recently defeated for Railroad Commissioner, has been employed by Gov. Beckham at a salary of \$5,000 to conduct the rate cases against all railroads operating in Kentucky, which were instituted by the Railroad Commission during Mr. McChord's membership of that body. Mr. McChord tendered his resignation as a member of the commission, and Gov. Beckham will appoint a member to serve during the ten days of the term remaining.

Want More Warships.

In his report to Congress the Secretary of the Navy recommends that nearly \$70,000,000 be appropriated for new war vessels, four of which are to be battleships of the best type. He also recommends the creation of two Vice Admirals, and says the command of ships should be in the hands of younger men. The report reviews the work of the year and gives the relative strength of the navies of the world.

Hopkinsville Tobacco Market.

Tobacco is pouring into Hopkinsville and is bringing high prices but, in spite of the fact that peace has been declared the nonassociation farmers are guarding their wagons while making deliveries. The general situation in Western Kentucky is greatly improved and money is plentiful. The crop there this year is below the usual amount, but is of high grade. Prices during the past week have been: Lugs, \$5.50 to \$7.50; common leaf, \$3 to \$9; medium leaf, \$10 to \$11. There has been no really good tobacco placed on the loose floor, and the warehousemen say that when it is offered it will bring fancy prices.
